My Med Test Now is a division of Advanced Screening & Wellness in it's 10th year of serving Michigan hospitals, consumers & employers.

### STD & HIV TESTS

#### Comprehensive STD & HIV Panel

**\$249**

Unprotected sex? If the answer is yes, then you could be infected with a sexually transmitted disease. Even with minimal or no symptoms, you could still suffer with several diseases. Find out now. Test for HIV, syphilis, herpes, gonorrhea, chlamydia, hepatitis at one low price. **(Each test can be done separately, ask for pricing)**

### PATERNITY/DNA TESTS

#### Paternity Test

**\$199 per person**

Gives you an accurate determination (99% certainty) of who the child's biological father is, and is admissible in court.

### DRUG SCREENS

#### Drug Test (Urine)

**\$49**

There are many reasons to consider a drug test. Check for amphetamines, methamphetamine, barbiturates, benzodiazepines, marijuana, cocaine, opiates, phencyclidine, methadone, propoxyphene.

#### DOT Drug Test (Department of Transportation)

Employers interested in negotiated rates, call 1-800-541-8110.

### WELLNESS TESTS

#### Full Blood Lipid Panel/Glucose

**\$49**

Measures: Total Cholesterol, HDL/TC Ratio, Triglyceride, HDL, LDL and Glucose.

#### Chemistry Panel (\$270 value)

**\$49**

Includes 14 essential tests typically requested by physicians as part of a routine check-up.

#### PSA (Prostate Specific Antigen) for Men (\$90 value)

**\$49**

Detects prostate cancer. An annual PSA is recommended.

#### CA125 Blood Test for Women (\$100 value)

**\$49**

Detects ovarian cancer. Hysterectomy doesn't preclude cancer.

#### C-reactive Protein (\$100 value)

**\$49**

Detects increased CRP, a substance produced by the liver when inflammation is present in the body that may I.D cardiovascular disease risk, heart attack or stroke.

#### Urinalysis

**\$49**

Used by physicians to locate the presence of substances that point to a wide variety of disorders and as a general indicator of overall health, during the early stages of pregnancy and prior to surgery.

#### Testosterone

**\$79**

Integral in helping the physician diagnose the causes of sexual dysfunction, infertility and hormonally influenced diseases.

#### Cholesterol Medication Maintenance Panel

**\$79**

If you're on a cholesterol-lowering medication, this panel helps to ensure proper dosage prior to a prescription refill and also to see if there are any changes in liver function that may signal a problem.

#### Diabetes Maintenance Panel

**\$89**

Undetected diabetes destroys vital organs, blood vessels and tissue without one's knowledge. Individuals with adult onset diabetes may already have cardiovascular disease. Risk for heart disease, stroke, kidney failure and blindness go up dramatically with diabetes.

#### Basic Blood Check-up (\$400 value)

**\$129**

The perfect panel to gauge overall health. This is a good baseline blood chemistry.

- CBC with Diff: tests for leukemia, anemia and blood clotting.
- Chemistry Panel: tests for glucose, electrolytes, kidney, liver function.
- TSH (Thyroid Stimulating Hormone)-Analyzes thyroid function.
